DETAILED ACTION

Allowable Subject Matter

1. Claims 9-15, 17-18 are allowable over the prior art of the record.

The following is an examiner's statement of reasons for allowance:

Regarding claims 9 and 11, the prior art of the record fails to show or suggest a method for driving a solid state image pickup device comprising the steps of setting only a single first signal charging period and only a single second signal charging period for each one of the plurality of unit pixel means, where the single second signal charging period occurs after the single first signal charging period and is shorter than the single first signal charging period; adding the second signal charge of the first unit pixel means to the second signal charge of the second unit pixel means for output by the CCD electric charge transfer means.

Claim 10 is allowable for the reason given respect to claim 9.

Claim 12 is allowable for the reason given respect to claim 11.

Regarding claim 13, the prior art of the record fails to show or suggest a solid state image pickup device comprising means for setting a first signal charging period and a second signal charging period for each one of the plurality of unit pixel means, where the second signal charging period occurs after the first signal charging period and is shorter than the single first signal charging period; means for adding signal charges of the two unit pixel means from the second charging periods.

Application/Control Number: 10/044,258

Art Unit: 2612

Regarding claim 14, the prior art of the record fails to show or suggest a method for driving a solid state image pickup device comprising the steps of setting a first signal charging period and a second signal charging period for each one of the plurality of unit pixel means, where the second signal charging period is shorter than the single first signal charging period and a first signal charge is produced during the first signal charging period and a second signal charge is produced during the second signal charging period; wherein the second signal charges of pairs of unit pixel means which are vertically adjacent are added.

Claim 15, 17-18 are allowable for the reason given respect to claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LUONG T. NGUYEN whose telephone number is (571) 272-7315. The examiner can normally be reached on 7:30AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wendy Garber can be reached on (571) 272-7308. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
